## EXPERIENCE

### Software Dev Intern, Exposure Tracker; Salt Lake City, UT

Nov 2015-Present

- Develop Exposure Tracker App - a hazardous exposure tracking app for firefighters
- Built a separate application - Elliott - from the ground up, which tracks data, usage & support
- Daily workflow involves Jira and Gerrit

CTO: Dave Jungst, (801) 330-3963

### TA, DevPoint Labs; Salt Lake City, UT

Nov 2015-Present

- Assist in instruction and problem solving with students
- Help plan and carry out events, meetups & hackathons

Admin: Will Liang, (801) 671-1823

## EDUCATION

DevPoint Labs, Salt Lake City, UT – Full-Stack Course, Fall 2015

University of Missouri, Columbia, MO – Electrical Engineering, 2010-2012

## PROJECTS

### MarryMe

[github.com/cef2010/marry\\_me](https://github.com/cef2010/marry_me)

- DevPoint Labs capstone project
- Built with different UX in mind for couples & vendors
- Involved hand-rolling a second set of authorizations for separate couple and vendor authentications

### Apollo - (work in progress)

[github.com/cef2010/apollo](https://github.com/cef2010/apollo)

- Concept came about after the realization that nobody is great at DJing in the office
- Will allow users to access an office-wide Spotify "jukebox"
- Future directions of interest include integrating with Slack
